```java
class ByteDataType{

        public static void main(String[] args){

                byte num = 10;

                System.out.println("num : " + num);
                System.out.println(" byte size :" + Byte.SIZE);
                System.out.println("maximum byte size :" + Byte.MAX_VALUE);
                System.out.println("minimum byte size : " + Byte.MIN_VALUE);
        }
}

/**
 *
 * Byte is a Wrapper class that have the MAX_VALUE and MIN_VALUE variable to show thw range
 * of Byte data type
 */
~
```
